TROPICAL CYCLONE BULLETIN NR. 5
Tropical Depression LUIS

Issued at 11:00 PM, 02 August 2026
Valid for broadcast until the next bulletin at 2:00 AM tomorrow.

LUIS MAINTAINS ITS STRENGTH AS IT MOVES WEST NORTHWESTWARD OVER THE SEA EAST OF AURORA.

Location of Center (10:00 PM)

The center of Tropical Depression LUIS was estimated based on all available data at **200 km East of Baler, Aurora (15.9°N, 123.5°E).**

Intensity

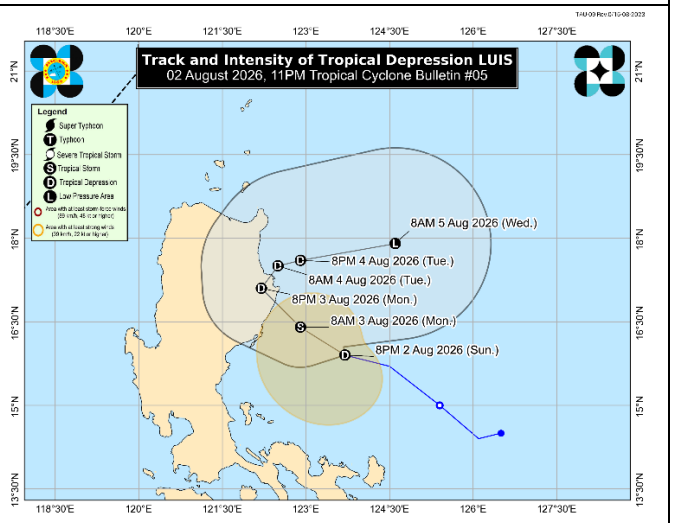
Maximum sustained winds of **55 km/h** near the center, gustiness of up to **70 km/h**, and central pressure of **1002 hPa.**

Present Movement

West northwestward at 15 km/h

Extent of Tropical Cyclone Winds

Strong winds extend outwards up to **160 km** from the center



TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)
	Lat. (°N)	Lon. (°E)	Location	MSW (km/h)	Cat.	
12-Hour Forecast 8:00 AM 03 August 2026	16.4	122.9	85 km East of Casiguran, Aurora	65	TS	WNW 10
24-Hour Forecast 8:00 PM 03 August 2026	17.1	122.2	In the vicinity of Ilagan City, Isabela	55	TD	NW 10
36-Hour Forecast 8:00 AM 04 August 2026	17.5	122.5	Over the coastal waters of Divilacan, Isabela	45	TD	NE Slowly
48-Hour Forecast 8:00 PM 04 August 2026	17.6	122.9	120 km East of Tuguegarao City, Cagayan	45	TD	ENE Slowly
60-Hour Forecast 8:00 AM 05 August 2026	17.9	124.6	305 km East of Tuguegarao City, Cagayan	-	LOW	E 15

TROPICAL CYCLONE BULLETIN NR. 5
Tropical Depression LUIS
Issued at 11:00 PM, 02 August 2026
Valid for broadcast until the next bulletin at 2:00 AM tomorrow.

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT			
TCWS No.	**Luzon**	**Visayas**	**Mindanao**
1 Wind threat: **Strong winds**	**The southern portion of Cagayan** (Enrile, Tuguegarao City, Peñablanca)**, Isabela, Quirino, the northern portion of Aurora** (Dinalungan, Casiguran, Dilasag, Dipaculao, Baler)**, Polillo Islands, the northern portion of Camarines Norte** (Daet, Talisay, Paracale, Jose Panganiban, Capalonga, Vinzons)	-	-
	Warning lead time: **36 hours** Range of wind speeds: **39 to 61 km/h (Beaufort 6 to 7)** Potential impacts of winds: **Minimal to minor threat to life and property**		

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Refer to **Weather Advisory No. 5 issued at 11:00 PM today** for the heavy rainfall outlook due to TC LUIS and the Southwest Monsoon.

Severe Winds

The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

The possibility of hoisting Wind Signal No. 2 is not ruled out.

The Southwest Monsoon and the periphery of LUIS will bring **strong to gale-force gusts** over the following areas (especially in coastal and upland areas exposed to winds):

- **Today (02 August):** Marinduque, Occidental Mindoro, Oriental Mindoro, Romblon, Masbate, Sorsogon, Caluya Islands, Northern Samar, Samar, Biliran, Siquijor, Southern Leyte, Camiguin, and Dinagat Islands.
- **Tomorrow (03 August) and Tuesday (04 August):** Most of Luzon and Visayas, Lanao del Norte, Misamis Occidental, Camiguin, Surigao del Norte, Dinagat Islands, Sarangani, Davao Occidental, and Davao Oriental.

TROPICAL CYCLONE BULLETIN NR. 5
Tropical Depression LUIS
Issued at 11:00 PM, 02 August 2026
Valid for broadcast until the next bulletin at 2:00 AM tomorrow.

HAZARDS AFFECTING COASTAL WATERS

24-Hour Sea Condition Outlook

Up to moderate to rough seas over the following coastal waters:

- **Up to 2.5 m:** The eastern seaboard of Isabela and Davao Oriental; the northeastern seaboard of Aurora.
- **Up to 2.0 m:** The eastern seaboards of Batanes, Cagayan, Dinagat Islands, Surigao del Sur, and Davao Occidental; the northern and eastern seaboards of Polillo Islands, Catanduanes, and Northern Samar; the northern seaboards of Camarines Norte, Camarines Sur, and Masbate; the southern seaboard of Davao Oriental; the western seaboard of Bataan.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions**.

Other coastal waters have forecast wave heights of less than 2.0 m.

TRACK AND INTENSITY OUTLOOK

- **It must be emphasized that heavy rainfall and severe winds may still be experienced in localities outside the landfall point and the forecast confidence cone. Refer to "Other Hazards affecting Land Areas" for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.**
- LUIS will continue to move generally northwestward and may make landfall over Northern Luzon tomorrow afternoon or evening (03 August). Afterwards, it will slowly turn northeastward then east northeastward while moving away from the Philippine landmass. The forecast track is highly uncertain and may change in the succeeding bulletins.
- LUIS is forecast to intensify into a tropical storm in the next 12 hours while moving over the sea east of Central Luzon. Once it makes landfall or close approach to Northern Luzon, it may weaken into a tropical depression by tomorrow. Afterwards, a weakening trend is expected and may be downgraded into a remnant low by Wednesday (05 August) before becoming fully assimilated into the circulation of Tropical Cyclone DOLPHIN.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 2:00 AM tomorrow.
